Washington, 11.—A short bill was passed by the Senate, last Friday, which is of considerable importance to the Union Pacific system of railroads and especially to the Kansas Pacific Railroad Company. The Kansas Pacific, although in possession of a whole grant of land of nearly 4,000,000 acres, in Kansas and Colorado, has evaded payment of local taxes on more than 3,000,000 acres, by refusing to pay the cost of survey. By law, patents are withheld until the costs of survey have been paid, and therefore, the title of the land remains in government, so that state and county taxes cannot be laid upon them and collected. Whenever a farmer buys any of the land, and desires a patent, the company pay all the costs of survey, and procure one for him. The Kansas Pacific unpaid lands in Kansas are reported worth \$13,000,000, and by the methods already described the state and counties are deprived of \$240,000 per annum in taxes. This bill passed by the Senate provides that unpaid lands belonging not only to the Kansas Pacific, but to any other company in the Union Pacific system, shall, after they have been surveyed, and after the company has become entitled to receive patents on the payment of the cost of surveying, etc., be subject to state and territorial taxes, to the same extent as they would be if completely conveyed to the patented companies. There are no published statistics showing the number of acres granted to other roads in the Union Pacific system, surveyed, but not patented, and therefore not subject to local taxation.

A little over a year ago the commissioner of railroad accounts reported that the titles granted to the Union Pacific, Central Pacific, Santa Fe, Missouri Pacific, and the Burlington and Missouri Companies amounted to nearly 41,500,000 acres, of which there had been patented by the companies, up to June 30th, 1880, only 8,338,000 acres. The value of the companies' unpaid lands was estimated at \$39,000,000. The bill reported by the House committee contains an important provision creating a sinking fund for the Kansas Pacific, Santa Fe and Central Pacific, and central branch of the Union Pacific Companies. It proposes to amend the sinking fund act of 1873, so that the sum of \$1,200,000 required to be paid to the credit of the fund by the Central Pacific on February 1st of each year, shall be paid in two installments, on April 1st and October 1st of each year, and the sum of \$850,000 required to be paid by the Union Pacific, shall be in like manner divided into two installments.

The Postal Department.

Washington, 12.—Postoffice officials say the surplus of receipts over expenditures for the past year will foot up in the vicinity of \$1,000,000. This fact is expected to prove a fruitful cause for many debatable propositions in Congress, when it becomes known at the end of this month just what the saving has been. There is a large party in Congress who argue that the department has no right to be self-sustaining, or at least to be made a source of revenue to government. In anticipation of the fact that the year's operations will disclose a margin of receipts over expenditures, a number of bills are pending looking to a reduction of the cost of postage to the public, one or two to reduce letter postage to two cents, abolish postage on second class matter and introduce secret message cards, which would take the place of short letters and cost 10c. The postmaster-general is expected to be favorable to some kind of reduction, but is opposed by many of the other officials of the department. Senator Ferry has reported what appears to be the most practical measure for public convenience. It authorizes the department to use a secret message card. This is nothing more than a postal card, with a flap gummed along the edges, to be sealed like an ordinary envelope, to cover the message. The card is to cost no more than the one now in use, to weigh no more, but could be used for all private business as safely as a letter. The bill is on the Senate calendar. As congressmen are getting in a hurry to go home it is not at all certain that anything will be done this session.

An Officer's Chance.

Chicago, 11.—An army officer here has prepared a statement from the records of the department, showing what chances an officer in the regular service even has of reaching 62 years, the retiring age, to say nothing of 64. Of forty-two officers entering the service at 19, all but four have died before reaching the age of 62; of 199 entering at 22 years, but nine survived at 62; of 120 entering at 25 years, but four survived at 62; of forty-six entering at 27 years, but two survived at 62; of forty-two entering at 29 years, none reached 62; of twenty-four who entered at 32 and 36 years, none reached 62; of 1,393 officers, whose ages were not recorded, who entered the service at various ages from 17 to 61, but eighty-four ever attained the age of 62, or almost exactly sixteen in 100. He then goes on to say it will be readily seen the greater the age is fixed the less benefit accrues to the service. The object of compulsory retirement is to relieve the present stagnation in promotion. Under a sixty-four year law there will be in eight years only eleven retirements in the cavalry, nine in the artillery and twenty-two in the infantry. He thinks it would be much better if Congress would make the age sixty, or an even fifty, especially as far as the line is concerned. Such an argument as the above will be used by the House when it comes to insist upon sixty-two years in the conference committee.

Kelly is in Earnest.

Washington, 12.—You may say for me that I will call up the international revenue bill at the very first opportunity, said Judge Kelly, chairman of the ways and means committee, to your correspondent this morning. I shall raise the question of consideration in favor of the internal revenue bill against any other measure that may be called up. I shall not enter another republican caucus on this subject. The bill should be passed, and I shall do all in my power to bring it to a vote.

Another Pension.

Washington, 12.—The House committee on pensions agreed to recommend a pension of \$600 per year for ex-President Taylor's daughter.

CRIME.**Lynching and Other Wickedness.**

Lawrence, Kas., 10.—Peter Vinegar, George Robinson and Ike King were taken from the jail here this morning, at 1 o'clock, by a crowd of vigilantes, and hanged from a bridge. Robinson pleaded for his life, and fell on his knees three times. King said, when he was about to drop, "Boys, let me down easy." The men behind said, "Did you let Bandsman down easy?" and gave the plank a shove. The necks of Vinegar and Robinson were broken, but that of King was not. There is talk of revenge on the part of the colored people, though most of them say the punishment was deserved.

New York, 11.—Leonard Bracy and Alexander Brown fought fifty-seven rounds with bare fists at Coney Island, this morning, for \$200 a side. It ended in a wrangle.

St. Louis, 11.—Republican's Kirkville special: The wife of Frank Mason, leader of the bank robbers, has turned up \$1,300 in gold stolen from the Brooksfield Bank. A special grand jury has found indictments against all the robbers, charging them with robbery and assault to kill.

Charleston, S. C., 12.—A negro, John Johnson, who outraged Miss McDowell, at Rockhill, yesterday, was lynched this morning.

New York, 12.—Murray and Green-pugilists, fought this morning near Fort Hamilton. The latter was terribly punished and lost the fight.

Big Storms.

Chicago, 11.—Specials from southeastern Iowa, western Missouri, and central Illinois, report widespread and very heavy rainstorms, in places assuming the form of water spouts, and doing much damage to property, washing away bridges, railroad tracks, etc. No lives are reported lost.

Denver, 11.—One of the heaviest rain storms ever known in this section, accompanied by water spouts, swept over Denver last night, doing thousands of dollars worth of damage in the city and surrounding country. Cellars and basements were filled with water. Several houses near the Platte River were swept away. The bodies of two men, Ludwig Mener and Fidel Driver, Germans, who were in one of the houses, were recovered. The bodies of three children drowned are not yet found. It is feared other lives besides these were lost. It is impossible to give the full extent of the damage at present. The storm will reach over several miles of thickly settled country. At Golden several houses were washed away. The Cambrian fire brick works were struck by lightning and completely destroyed.

Bracing Them Up.

Washington, 12.—Southern democrats in Congress have been in receipt of letters for days from prominent democrats in their respective states conveying the alarming intelligence that great distrust exists in the democratic party south respecting the fall elections. The impression, they stated, seemed to prevail among the democrats that the coalition fostered by the administration in the southern states would carry everything before them. The democrats, they said, were becoming disheartened. Thereupon democrats in the House, realizing the necessity of reassuring their party friends, canvassed among themselves the democratic chances in the coming elections. By close calculation and throwing out all speculative elements, they came to the pleasing conclusion that democrats would have a majority of twelve in the next House. This statement was solemnly and formally made up and transmitted to the chairman of the democratic state central committees of the south. Nothing has yet been heard of the effect of this tonic on the enervated boards.

Cable Clicks.

Berlin, 11.—Prince William's son was christened Frederick William Victor Augustus Ernst.

St. Petersburg, 12.—General Ignatieff, at his own request, has been relieved from the post of minister of the interior, on the ground of ill health, and appointed president of the academy and member of the Senate. He retains his membership of the council of empire, and his adjutancy.

Count Tolsto, formerly president of the academy, is appointed minister of the interior.

Discrimination Against Sex.

Washington, 12.—The decision of the pension commissioner against the employment of female clerks among the thousands of more new ones to be employed is creating much complaint. Female clerks have been found in many cases to be quite as useful as the other sex and more worthy.

The Canada Pacific.

The Globe says it is learned on excellent authority that the Canada Railway must cross the Rocky Mountains by the Yellow Head Pass, and that Sir Charles Lipper's statement to Parliament that a more southern pass than that had been discovered was untrue.

Produce.

Chicago, 12.—Wheat No. 2 spring, nearly nominal, regular higher 116 1/2 July; 197 1/2 August; corn firm higher 60 1/2 cash; 70 1/2 July; pork strong higher, 20 00 cash July; 21 05 August; lard firm higher 11 50 cash; 55 July.

Blaine.

Chicago, 12.—Inter-Ocean's Washington: The report which again comes from Maine, that Blaine will run for governor, is discredited here. Last week Blaine told your correspondent that he was out of politics and that he was a coal merchant.

Guiteau.

Chicago, 12.—Mrs. Scoville reports that the morning mail brought in over 600 signatures for her petition in behalf of her brother.
